

TEXTILE ASIA SUMMIT 2015

August 31st, 2015 @ Conference Room Hall-1,
Lahore Expo Centre – Pakistan

We are pleased to apprise you that **Textile Asia Summit 2015** is being organized by **National Textile University (NTU), Faisalabad** and **Ecommerce Gateway Pakistan (Pvt.) Ltd**, which is being held on Monday, 31st August 2015 at Lahore Expo Centre. Some of the major speakers are:

Prof. Dr. Arshad Ali is Rector at NTU. He is a prolific researcher and academician. He has been awarded with Pride of performance and Sitara –i-imtiaz by the Govt. of Pakistan in regard of his services in the area of academics. He has 5 patents and over 100 publications to his credit in national and international conferences & refereed journals. He has been awarded gold medal by Pakistan Academy of Sciences and COMSTECH for IT research, Presidents' Gold medal for best NUST researcher of the year 2005 and "Distinguished Scientists of the Year 2006" award by Pakistan Academy of Sciences.

Prof. Dr. Tanveer Hussain is Dean of Faculty of Engineering and Technology at NTU. His main areas of research include: Functional Textiles; Modeling & Predicting Textile Behavior; Textile Expert Systems; Clothing Comfort; Sustainable Coloration and Functional Finishing. He has published around 100 research papers and a monograph on "Critical solutions in the dyeing of cotton materials". Textile Engineering, Bronze Medal from the Society of Dyers and Colourists UK, and Best University Teacher Award from the Higher Education Commission Pakistan.

Dr. Yasir Nawab is an Assistant Professor at the NTU. Currently, he is working as Chairman of fabric manufacturing department and leading the Textile Composite Materials Research Group. His research areas are Composite Materials, 2D & 3D woven and knitted fabrics and finite element analysis. He is the author of over 28 peer-reviewed journal articles, a book and 22 conference communications. His Ph.D at University of Nantes, France was declared as Remarkable Ph.D in Science & Technology. He has gained research experience with ONERA (The French Aerospace Lab) and several European and local industrial groups.

Dr. Sheraz Ahmad is working as assistant professor in the department of materials and testing at NTU. His main areas of research are related to fibre science, inter-fibre friction, machine design and instrumentation. He has got funding of 0.5 million to date. He is currently working on the research project "Development of conductive yarn for SMART applications". He also worked as assistant manager Quality for three and half year in Crescent Textile Mills LTD.

Dr. Muhammad Tausif is Assistant Professor at Department of Textile Engineering, University of Engineering & Technology Lahore (Faisalabad Campus). He also teaches "Nonwoven Textiles" as Visiting Assistant Professor at NTU. He also worked as Technical Project Coordinator for three years at Nonwovens Innovation and Research Institute (NIRI) Limited UK which is a leading company in nonwovens research and development. NIRI undertakes projects with global nonwovens and technical textiles manufacturers and converters.

Dr. Munir Ashraf is working as Assistant Professor in Textile Processing Department at NTU. Surface functionalization with nanomaterials, synthesis and application of functional dyes and finishes and functional composites are his research areas.

Dr. Abher Rasheed is an Assistant Professor at NTU. Currently, he is working as Chairman of Garment Manufacturing departments. His research areas are E-textiles, garment manufacturing and quality management. In addition to that, he received his Ph.D from University of Haute Alsace, France in the domain of SMART Textiles in 2012, which was declared as Remarkable Ph.D in science & Technology.
